

Lever Lock Vertical DIN Rail 13.6 Inches **SKU: LL-VDIN17**

Vertical lacing bars install between rackrail brackets on compatible racks to facilitate cable lacing. Vertical mounting plates are designed to mount small devices and make use of otherwise wasted space.

- Compatible with the specific rack series – note required matching length
- Choice of angle and channel bar styles, each in two lengths
- Mounting plates also come in two lengths
- Steel construction with black powder coat finish
