

PD Slim High Density Vertical Power Strip, 24 Outlet, 20A **SKU: PD-2420SC-NS**

The Select Series PD Slim High Density Vertical Power Strips are a great solution to a rack full of power hungry equipment. It mounts vertically and unobtrusively in the back of your rack with a high density of outlets to ensure every piece of equipment gets the power it needs. Finding space for power in your rack should be the least of your worries. Plug it in, feel confident, and simply focus on creating an amazing AV experience.

Select Series PD Slim High Density Vertical Power Strips Features & Benefits

- 20 Amps
- 24 Outlets
- 10' SignalSAFE™ power cord
- **Leave no device unpowered.** The high density of outlets in each strip supports demanding installations.
- **Have limited space for power?** The lightweight, slim design enables installers to provide as many outlets as possible, while taking up as little vertical space as possible.
- **Make installation easy as one, two, clip.** The mounting hardware is included and takes no time to snap the PDU on to the side of the rack.
- **Worried about interference?** The attached SignalSAFE™ power cord minimizes potential interference from AC magnetic fields from other equipment in the rack.
