

Premium+ PDU With Racklink, 9 Outlet 20A Series Protection Surge **SKU: RLNK-P920R-SP**

More than power distribution, the Premium+ PDU with RackLink™ is the most advanced - yet simplest - to use IP control solution for Remote System Management in the industry. Developed around a platform that has been proven on the most secure networks in the world, this next-generation power distribution unit provides unmatched monitoring, control, logging, security and power protection capabilities available for demanding AV applications. The RackLink™ technology allows you to control locally or virtually through 3rd party AV control systems, cloud platforms and SNMP for flexible management that is smarter, faster and reduces service costs.

Control Concepts Supported Product

Have the confidence that our modules and plug-ins are developed and backed by Control Concepts, the premier software developer for the AV industry.

HETMA Approved

This certification recognizes these products' outstanding quality, reliability, and ability to enhance technology integration in higher education environments.

- 9 Outlets
 - 8 Outlets in the back
 - 1 convenience outlet in the front
- 20 Amps
- Patented non-sacrificial **Series Protection** surge technology
- Simple system setup with advanced capabilities
 - Save programming with integrated scheduling, variable timed sequencing, ping sequencing, auto healing, thresholds, and multiple notification options.
 - Easily connect to control and IT systems with universal compatibility through custom drivers, SNMP v3/MIB, JSON-RPC, and 3rd party integrations.
 - Remotely update firmware without having to shut down the PDU, ensuring system uptime
- Best-in-class monitoring, logging, and data reporting for remote system management with a user-friendly interface.
 - Superior metering accuracy of total power draw down to outlet level including current, voltage, power, power factor and energy usage
 - Connect multiple environmental sensors to monitor the temperature and humidity and alert potential threats that could cause system downtime
- Industry-leading network security and support of IT protocols for demanding end users
 - SSL/TLS Certificates
 - SSH
 - HTTPS
 - Self-signed certificates
- Built in partnership with Raritan, a leader in the intelligent power market, using their Xerus platform to deliver robust security features and intelligence
- Compliant with AVIXA Energy Management Standard to support energy efficient AV system design, monitoring and optimization

Specifications

Dimensions & Measurements	AC Voltage Input	80-140V
	Amps	20 Amp
	Shipping Weight	13 lbs (5.9 kg)
Characteristics & Features	Available Internationally	No
	Outlet Count	9
	Output Ports	LAN
	Receptacle Type	NEMA 5-20R
	Surge Protection Type	Series Protection
	TAA Compliant	No
	UPC	656747321627
Certifications & Warranties	Certifications	• FCC • UL Listed
	Patent Number	• 844 • 947 • US 8
	Patents	www.legrandav.com/patents
