

Tempo™ In-Wall AV Storage Box – 14" x 23" **SKU: FPIWSBX**

---

The patent-pending Tempo™ In-Wall Storage Boxes are designed to fit perfectly between 16" O.C. (On Center) metal or wood studs and install like any other in-wall box. Add as many storage boxes as needed to store small devices.

The Tempo In-Wall Storage Box ships with one 15"x10" (381 x 254 mm) Lever Lock™ plate, offering a minimum clearance for 1 RU of AV equipment. Place small devices where you need them thanks to lateral shift flexibility within the storage boxes. Lever Lock plates are compatible with Middle Atlantic® Forward Small Device Mounting Clamps to quickly secure devices in place.

Three types of knockouts per box offer flexibility in vertical and horizontal cabling between storage boxes, giving total control over power and data design.

Storage Weight Capacity: 20 lbs 9 kg per Lever Lock plate

- Side wall knockouts accommodate four different trade conduit sizes: 1.5", 1.25", 1" and 0.5"
- Top (3) & Bottom (3) knockouts: - 1.25", 1" and 0.5"per box
- Single-gang electrical box: one bottom, one top per box

**Kit Includes:**

- (1) In-wall box
