

SMART MultiStylus with Tool Explorer (V2) technology

Overview

The SMART MultiStylus accessory kit is a multi-functional pen with a docking station that unlocks new capabilities on SMART Board® interactive displays with iQ 4, whether users are at the screen or moving freely around the room. With pen and air-mouse modes, customizable buttons, and integrated Tool Explorer™ (V2) support for cubes and stamps, it enables more interactive teaching, collaboration, and lesson presentation work flows.
